One of my wife's friends sent a message to me about their experience yesterday. I wanted to share it with all of you.

Hey Jen! I wanted to reach out so you can share a message with your hubby. We still don't have power in the grange and it's been exhausting, like it is for everyone. We have been in the front yards with at least 20 or so kids from sun up to sun down letting them all play, we've grilled together etc just trying to navigate it the best we can.

Yesterday someone in the neighborhood called a noise complaint to Clemson PD TWICE!!!! The officers came out and were SO amazing with the kids. Several of the kids told them they want to be police officers too and they asked the poor officers 1,000 questions and they were just so patient and kind with the kids.

I know your husband and all of his officers are beyond exhausted but I just wanted to get a message to him and say thank you. Despite the rude neighbors that called to complain, the kids met some of our Clemson hero's yesterday and loved every second of it. Please tell him thanks from all of us for keeping our favorite town safe.

Thanks,

Lt. Gooch
