GM,

A Resident brought something to my attention this morning that is of concern regarding CU and Duke Power.

The Resident asked me for help getting to the bottom of it and said if I was unable to help they would go to the media so they can investigate.

I suggested to this Resident they should approach ya'all directly about it, but they said they felt "more comfortable" asking me for help.

So here we are. The Resident is holding off contacting the media to give me a chance to sort through this and to stay on it.

I am requesting a face-to-face meeting with you both tomorrow (Monday). I'm open anytime after 11:00 am.

Thanks,

Nanda Edgerton
