Good am, Mayor Halfacre and Lauren,

I hope you both are doing well!

As promised, I wanted to give you an update on the upcoming ADA project:

The Clemson ADA Station Project is anticipated to start construction in 2025 and conclude in 2027. The design is at 100% but has yet to go through approval process by stakeholders (FRA, Norfolk Southern, City of Clemson, etc.). The scope of the ADA station project at Clemson includes:

1. correct the structural cracking on the platform
2. correct non-ADA compliant slopes on the ramp and stairs leading from drop off zone to platform
3. add station identifier signs to platform-side and field side of the track
4. correct non-ADA compliant sections of the handrail on the ramp and stairs
5. replace station sign on Clemson Boulevard
6. provide accessible path to public right-of-way (sidewalk on Clemson Blvd.)
7. add passenger shelter on platform
8. add wheelchair lift enclosure on platform

In addition, my design team is working on a Clemson one-pager that highlights the station and the route. Any chance you can share Clemson City logo and a logo from the school (specifically the paw print)?

The team said they would have a draft to me in a couple of weeks. I will share with you to review prior to making it final. We want to make sure it's exactly what you had in mind.

The head of the ADA team said if you feel you would like to mee to discuss the ADA project in more detail we can schedule a time to travel to Clemson. Just let me know if that is something you need.

I hope you aren't getting hit to bad from the hurricane. Starting to get bad in Raleigh! Stay safe!

Have a great weekend!

Shannon
