Time and time again, I have witnessed the power of grassroots organizing.

Together, we can work to prevent climate catastrophe and instead build equitable, healthy, and thriving communities. But we must act swiftly to avert the worst impacts of the climate crisis and achieve a just transition to clean energy.

That's exactly what our global network of Climate Reality Leaders is working tirelessly to do, and **I am asking you to join us, Larry**.

I'm personally inviting you to register for our special online leadership training from October 17–23 to learn how you can help build a clean energy future for America.

With the knowledge and support that our trainings provide, thousands of

people just like you have found their place in the climate movement.

Through live broadcasts with world-class speakers, skill-building sessions, and interactive workshops, you can gain the knowledge, tools, and networks you need to achieve real solutions toward a true net-zero future here in the United States.

If you've been searching for a way to make a difference on climate, *this is your moment*. No matter where you are, you hold the power to help phase out fossil fuels and build the sustainable future we know is possible.

Sign up to join me at our virtual leadership training from October 17–23 and learn how you can become part of the solution.
