Partner Digest

Hi Robert,

>From all of us here at GovExec, we hope your week is going well. Updated weekly, our Partner Digest will keep you caught up on transformations happening at the federal, state, and local level.

New this week:

- Generative artificial intelligence
- Strengthening data security
- Cyber defense guide

Featured Insight

As governments race to move services online, Identity is a most crucial step in delivering the right services to the right person. Okta helps agencies achieve a secure solution by equipping online experiences with Identity-centric security measures that protect personal data. Download the datasheet to learn more about: aligning trust to context, pre-authorization risk assessments, flexible multi-factor authentication (MFA) options.
